PECB Certified ISO/IEC 38500 Foundation

Become acquainted with the best practices of IT Governance based on ISO/IEC 38500

Why should you attend?

As organizations deepen their reliance on IT and digital capabilities, the ability to govern these resources effectively has become essential. In an era shaped by technological change, heightened risk, and evolving stakeholder expectations, understanding how to establish governance for the use of IT is fundamental to building resilient and accountable organizations.

The ISO/IEC 38500 Foundation training course provides the basic concepts and principles for the use of IT. It offers a clear and structured approach to help participants understand the principles, model, and framework of the governance of IT as outlined in ISO/IEC 38500.

After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for the "PECB Certificate Holder in ISO/IEC 38500 Foundation" credential. A PECB Foundation certificate validates your understanding of good governance practices in the context of digital transformation

Who should attend?

This training course is intended for:

- Managers and consultants seeking knowledge about the basic concepts and principles of governance of IT
- Individuals involved in digital transformation, compliance, or IT-related initiatives

Learning objectives

By the end of this training course, participants will be able to:

- Interpret the concepts and principles for the governance of IT
- Explain the ISO/IEC 38500 model for the governance of IT
- Describe the ISO/IEC 38500 framework for the governance of IT

Course agenda

DURATION: 2 DAYS
