

Scrum Better with Kanban

Learn how to enhance your scrum process by integrating kanban principles—improving visibility, flow, and agility across your team's work.

 **Live | Instructor led**

Duration:
8 hours

Credential:
1 credential from
Kanban University
and 1 microcredential
from Scrum Alliance

Languages:
English

Who it's for

- Scrum masters, product owners, developers
- Agile coaches and delivery leads
- Agile teams seeking to improve process transparency and efficiency
- Anyone looking to bridge scrum with kanban practices

Why it matters

Scrum Better with Kanban equips teams to enhance predictability, reduce bottlenecks, and deliver more consistently. Integrating visual workflow tools into scrum practices boosts agility and team collaboration—putting them in control of their delivery.

Bundle with: Lean Software Development, Scrum Essentials, Agile OKRs

Key learning outcomes

- Understand the fundamentals of kanban and its compatibility with scrum
- Visualize work and optimize flow with kanban boards and metrics
- Improve team collaboration by limiting work-in-progress (WIP)
- Manage debottlenecking and continuous improvement with real data
- Apply kanban techniques within scrum events and cycles

Course modules

1. Learn the Six General Practices of the Kanban Method
2. Learn the Three Change Management Principles

"My experience at Scrum Alliance was simply exceptional."

— Scrum Alliance member
