

Agile Essentials

Upskill your employees with essential agile capabilities that support faster time to market, improved engagement and alignment, and adaptability that allows you to outpace the competition.

On-Demand or Live Instruction

Duration:

5 hours

Credential:

Microcredential

Languages:

English, Spanish, Korean,
Japanese, Portuguese,
Chinese, German

Who it's for

- Individuals new to agile (e.g., team members, managers, executives)
- Professionals across industries—IT, HR, healthcare, marketing, education, manufacturing
- Anyone looking to add agile skills to their resume or support team agility

Why it matters

Agile Essentials offers a fast, flexible, and focused path for individuals and teams to build foundational agility—boosting market responsiveness, alignment, and value delivery instantly.

Bundle with: Scrum Essentials, Agile OKRs, Agile for HR

Key learning outcomes

- Define and apply the agile mindset and values
- Understand agile frameworks and team roles
- Identify when and how to leverage agile in non-software environments
- Support agile adoption and drive adaptability across the organization

Course modules

1. What is Agile?
2. The Agile Team
3. My Performance on an Agile Team
4. Agile Practices
5. Agile Evolution
6. Agile Beyond Software: Applying Agile to Diverse Fields

“One thing I appreciated about this course is how it took agile principles and showed how they can be applied to almost any circumstance.”

— Agile Essentials student
