Why This Program is a Game-Changer for You

Our 6-month program is designed to **do more than train you** — it transitions you into the mindset, tools, and habits of a **high-performing project manager**.

1. Certification-Ready with Dual Curriculum

- Gain full mastery of the **PMBOK® Guide – 5th Edition** (Processes & Tools).
- Understand and apply the **PMBOK® Guide – 7th Edition** (Principles & Performance Domains).
- Aligned with PMI's latest **Exam Content Outline**.
- Includes **PMP®/CAPM® exam prep bootcamp**, quizzes, mock exams & audit-proof application support.

2. Hands-On Real-World Project Simulation

- Participate in a **full life-cycle simulation**: Initiating → Planning → Executing → Monitoring → Closing.
- Simulate stakeholder meetings, risk assessments, status reporting, and retrospectives.

3. Microsoft Project Training

- Master one of the most widely used project-scheduling tools.
- Learn to:

  - Build work breakdown structures (WBS)
  - Create Gantt charts and milestone schedules
  - Track cost, time, and resource allocation
  - Generate professional status reports

4. Career Coaching & Job Readiness

- CV and LinkedIn revamp, interview simulations, and personal branding strategies.
- Learn to **position your PM experience**, even from unrelated industries.
- Access job referrals, Bluetellura's PM hiring network, and recruiter connections.

5. Built to Deliver Real Impact

- This isn't theoretical. It's immersive, **practical**, and **proven**.
- You'll walk away **certified, experienced, and confident** to lead real-world projects.

Bluetellura Career Transition to Project Management Program

✅ Program Overview

The Bluetellura Career Transition Program is a **6-month, mentor-led, hands-on training journey** designed to transform professionals into confident and certified project managers.

It uniquely integrates:

➢ **PMBOK® Guide – 5th Edition** (process-based framework)
➢ The **PMBOK® Guide – 7th Edition** (principle- and performance-driven approach)

This combination equips you with **practical tools**, **structured methods**, and **modern agile thinking** — the exact mix needed to **pass the PMP®/CAPM® exam** and lead real-world projects.

✅ Why This Program?

This 6-month, structured program is built on the PMBOK® Guide – 5th & PMBOK® Guide – 7th Edition and enhanced with hands-on experience, real projects, and certification support.

Course Structure (Integrated with PMBOK 5 & 7)

❖ *PMBOK® Guide – 5th Edition: Process-Based Learning*

You will master the 47-project management processes grouped under:

1. **Initiating**
2. **Planning**
3. **Executing**
4. **Monitoring & Controlling**
5. **Closing**

Aligned with 10 Knowledge Areas:

- Integration Management
- Scope Management
- Time Management
- Cost Management
- Quality Management
- Human Resource Management
- Communications Management
- Risk Management
- Procurement Management
- Stakeholder Management

   NOTE:

   You will use templates, simulations, and tools for each process, such as WBS creation, Gantt charts (MS Project), risk matrices, and stakeholder maps.

❖ *PMBOK® Guide – 7th Edition: Principle-Based & Agile-Friendly*

You will explore and apply **12 Project Management Principles**, including:

- Stewardship
- Team collaboration
- Value delivery

- Tailoring
- Leadership
- Stakeholder engagement
- System thinking
- Adaptability and resilience
- Risk optimization
- Quality focus
- Complexity navigation
- Change responsiveness

And work through **8 Performance Domains**:

1. Stakeholders
2. Team
3. Development Approach and Lifecycle
4. Planning
5. Project Work
6. Delivery
7. Measurement
8. Uncertainty

NOTE

This part of the course encourages critical thinking, decision-making under ambiguity, and delivery-focused leadership.
